Design:

It's your wedding, so get the cake you want! We are happy to help you design your cake from scratch, to match your invite, dress, and/or style, but we can also create cakes you've seen in magazines and internet searches. Be sure to bring pictures of cakes you like to your consultation appointment, so we can see your sense of style, maybe combining features from several of your favorite pictures. We also have a wide selection of magazines and books to look at!
